REGISTERED INVESTMENT ACCOUNT

Simple process. Professional solutions.

Assumption Life is committed to giving licensed insurance advisors a competitive edge with the help of this savvy and hassle-free investment solution.

The Registered Investment Account (RIA) is a unique concept in the industry, designed for fee-conscious investors who rely on their advisor to find a solution focused on long-term growth of their assets. Essentially, RIA is an annuity contract offered by a Canadian insurer where investor deposits are kept in the insurer's general funds and the account mirrors the returns of one or more reference funds or strategy selected by the investor.

Our sales process and fund lineup offer the same great strategies used by most investment professionals in order to give our advisors the tools needed to compete in today's investment management landscape.

BENEFITS OF REGISTERED INVESTMENT ACCOUNT

- Professional money management
- Low fees
- Designate a beneficiary
- Assuris Protection
- Exclusive Fund Manager and Funds
- Death benefit and maturity guarantees (75/75 and 75/100)
- Preferred Pricing Program for clients

BENEFITS FOR YOU

- Simple sales process
- Available on FundSERV
- Available on Vesta
- Flexible commission options

Assumption Life at a glance

- ✓ **Mutual Company**
- ✓ **Over 123 years in business**
- ✓ **A.M. Best Rating of A- for the 26th consecutive year**
- ✓ **Assets Under Management: \$2.6 billion**
- ✓ **Solvency Ratio of 167%**

GUARANTEE FEATURES

	75/75 (series D & E)	75/100 (series G)										
Death benefit guarantee	In the event that the annuitant dies before the contract maturity date, the death benefit will be the greater of the market value or 75% of net deposits (reduced proportionately for withdrawals)	<p>In the event that the annuitant dies before the contract maturity date, the death benefit will be the greater of the market value or 100% of net deposits (reduced proportionately for withdrawals)</p> <p>A decreasing guarantee scale applies to premiums allocated to the Investment Account after the annuitant's 77th birthday, in accordance with the following scale:</p> <table border="1"> <thead> <tr> <th>Age of Annuitant at Time of Premium Payment</th> <th>Guaranteed Portion of Gross Premiums</th> </tr> </thead> <tbody> <tr> <td>77 years</td> <td>95%</td> </tr> <tr> <td>78 years</td> <td>90%</td> </tr> <tr> <td>79 years</td> <td>85%</td> </tr> <tr> <td>80+ years</td> <td>80%</td> </tr> </tbody> </table>	Age of Annuitant at Time of Premium Payment	Guaranteed Portion of Gross Premiums	77 years	95%	78 years	90%	79 years	85%	80+ years	80%
Age of Annuitant at Time of Premium Payment	Guaranteed Portion of Gross Premiums											
77 years	95%											
78 years	90%											
79 years	85%											
80+ years	80%											
Maturity benefit guarantee	Upon Maturity age of 105 years, the annuitant will receive the greater of the market value or 75% of net deposits (reduced proportionately for withdrawals)	Same as 75/75 Maturity Guarantee										
Guarantee resets	None	None										

How Withdrawals Affect Your Guarantee

Withdrawals reduce the guaranteed amount on a proportional basis. The percentage withdrawn from the contract is applied to the guaranteed amount at the time of withdrawal. As a result, smaller withdrawals lead to proportionally smaller reductions, while withdrawals that represent a larger percentage of the account value result in a greater reduction. This proportional adjustment ensures the guarantee remains aligned with the value remaining invested in the contract.

FEES

Transfer Fees	A \$50 fee will apply to each transfer to another financial institution.
Internal Switch Fees	We offer 4 individual instances per calendar year free of charge. This includes rebalancing, fund allocation and/or any changes. If exceeded, the annuitant is subject to a \$25 charge per instance.
MER (Management Expense Ratio)	<p>The MER is the total of the management fees and reference fund fees. Management Fees means the fees charged by Assumption Life to administer the Contract.</p> <p>Management Fees include the insurance fees to cover the cost of guarantees upon death and at maturity, operating expenses, legal fees, administrative fees and investment management fees. Management Fees, expressed as a percentage, are deducted daily from the market value credited to an Investment Account. Management fees do not include the Reference Fund Fees, which are deducted from the market value calculation of the Reference Funds credited to the Contract. Reference Fund Fees means all fees, costs and expenses applied to Reference Funds, including but not limiting to operational expenses and performance fees where applicable.</p>

This guide is not contractual. This is a summary of the various features of Assumption Life's Registered Investment Account.

¹These funds are the funds referred as "Bond Funds"

²The reference funds and strategies performance are based on the market value as provided by the respective fund managers, of which the management fees shown in percentage are deducted daily.

³For the Momentum Canadian Equity Investment Account, the underlying fund also has an additional performance fee equal to 20% of the surplus performance above the S&P/TSX Composite Index. In the event of a monthly performance lower than the S&P/TSX Composite Index, no monthly performance fee is payable until the cumulative performance of the fund, starting the last month where the performance fees were paid, is higher than the S&P/TSX Composite Index. The performance fee for the last five years has been 2021 (0%), 2022 (1.60%), 2023 (0%), 2024 (0%) and 2025 (5.55%).

⁴The MER includes the insurance fees to cover the cost of guarantees upon death and at maturity, the management fees, and the operating expenses of the fund. The MER shown is a projected figure reflecting the reduction of certain fees effective December 31, 2025, and may differ from the actual MER reported at year-end.

RENOWNED FUND MANAGERS

We work with the very best fund managers. We've researched hundreds of investments and selected the best performing funds from each of our partners.

Louisbourg Investments is one of Atlantic Canada's leading portfolio management and investment advisory firms and is 100% owned by regional stakeholders.

Founded in 1991, Louisbourg Investments has grown from humble beginnings to now managing over \$3 billion in assets for clients throughout Canada. The firm is 30% owned by members of the management team and 70% owned by Assumption Life.

The Louisbourg Investments team is comprised of a diverse group of experts working together for the realization of your financial objectives.

Louisbourg Investments is focused on integrity, ethics, and a client-centered approach. These core values guide the firm's investment decisions and its day-to-day management.

Louisbourg also manages Assumption Life's various portfolio funds.

CI Global Asset Management has been managing money on behalf of Canadian investors since 1965. In 1981, CI entered the global fund arena with the introduction of CI Pacific Fund – one of the first funds in Canada devoted to Asian markets. The company became known for its expertise in foreign funds and adopted the name Canadian International Fund Management.

Over the years, CI expanded its lineup of funds to provide investors with an increasingly comprehensive offering of Canadian, global, and industry funds. This growth was guided by a strategy of seeking the best available portfolio managers.

Today, CI Global Asset Management is one of Canada's largest investment fund companies. About 1.3 million Canadians trust us to help realize their financial goals.

CI is proud to partner with financial advisors across Canada, who offer our funds to their clients. We believe investors are most successful when they follow a sound financial plan developed with the assistance of a qualified advisor.

Founded in 1946, **Fidelity Investments** Canada ULC brings a global network of investment expertise to Canadian investors. Our products are sub-advised by a variety of companies, including Fidelity Management & Research Company (FMR Co., Inc.), Fidelity Institutional Asset Management (FIAM LLC), Fidelity Management & Research (Canada) ULC (FMR-Canada), Fidelity (Canada) Asset Management ULC (FCAM), Fidelity International (FIL Limited), and Geode Capital Management LLC.

Investment professional counts include portfolio managers, research analysts, and associates and traders.

© 2026 Fidelity Investments Canada ULC. All rights reserved. Fidelity Investments is a registered trademark of Fidelity Investments Canada.

TD Asset Management Inc. (TDAM), a member of TD Bank Group, is a North American investment management firm. TDAM offers investment solutions to corporations, pension funds, endowments, foundations, and individual investors. Additionally, TDAM manages assets on behalf of almost 2 million retail investors and offers a broadly diversified suite of investment solutions including mutual funds, professionally managed portfolios, and corporate class funds. Asset management businesses at TD manage over \$400 billion in assets.

AGF Investments is comprised of various subsidiaries of AGF Management Limited who manage and advise on a variety of investment solutions for clients globally. The investment teams draw upon and integrate fundamental and quantitative investing capabilities and research across the companies.

AGF Investments services a diverse client base from financial advisors and individual investors to institutional investors across the globe through segregated accounts, mutual funds, exchange-traded funds and separately managed accounts.

AGF Investments' disciplined approach, global mindset, and eye to risk management have allowed us to continue to evolve and thrive as a diversified asset manager.

¹The asset under management (AUM) represents the total assets held across registered investment accounts and segregated funds at Assumption Life as of December 31, 2025.

²As of December 2025.

³Registered Investment Accounts offer returns tied to the reference fund performance, however, it is not the same as purchasing units of the fund.

⁴Performance information is based on Series D as of December 31, 2025, and represents the actual performance of the underlying reference fund net of fees.

⁵Backdated return estimates were calculated by applying our current asset allocation model to previous periods while using actual returns for the underlying individual funds. The performance numbers vary due to the differences in the underlying fees of each series. Performance data shown is using the 75/75 guarantee product. This information should only be used as an estimate of what these funds would have provided for returns over the periods shown.

Summary of the Investment Account

The Canadian Bond (Louisbourg) investment account is based on the performance of the Louisbourg Canadian Bond reference fund³.

Investment Objectives & Strategies

The principal investment objective of the Louisbourg Canadian Bond Fund is to generate reliable income while emphasizing capital preservation. The fund will seek to achieve a reasonable rate of return over time arising from interest and capital gains. The Louisbourg Canadian Bond Fund will invest primarily in a portfolio of Canadian based fixed income assets denominated in Canadian currency. The fund will hold bonds of quality issuers that are considered to offer attractive risk adjusted returns both on an absolute and relative basis and will employ effective diversification, relative value and credit analysis.

Summary of the Investment Account

The Climate Leadership Balanced (Fidelity) investment account is based on the performance of the Fidelity Climate Leadership Balanced Fund™ - series O³.

Investment Objectives & Strategies

The fund aims to achieve a high total investment return. It primarily invests in a mix of equity and fixed-income securities from issuers worldwide, focusing on those believed to reduce risks or benefit from opportunities related to climate issues and the global transition to a low-carbon economy. When investing in fixed-income securities, the account places greater emphasis on investment-grade options. These securities may be held directly or indirectly through investments in underlying accounts.

Assumption/Louisbourg Momentum Fund

Investment Objective

The principal investment objective of the Assumption/Louisbourg Momentum Fund is to achieve long-term capital appreciation through a combination of capital gains, income, dividends or other return of capital, by investing principally in equity securities (or equivalent) of issuers listed on a Canadian stock exchange or having substantial Canadian operations.

Methodology

The Fund invests in a concentrated portfolio of 12 Canadian stocks. The stock selection is purely quantitative and based on several factors. The Fund is rebalanced on a monthly basis and the holdings are equally weighted at rebalancing. The universe of selection is limited to the 120 largest companies in the S&P/TSX Composite that also respect certain liquidity criteria.

Performance Bonus for Momentum Fund - Explained

The fund manager can earn a monthly performance bonus when the fund outperforms its benchmark, the S&P/TSX Composite Index (the “Index”).

How the Performance Bonus Works

When the fund’s return exceeds the Index return, the fund manager receives 20% of the excess return, and the client retains 80%. Performance is calculated daily, but any applicable bonus is only added at the end of the month.

If the fund underperforms, no bonus is paid until that underperformance is fully recovered.

Example 1: Fund Outperforms the Index

As seen in the table below, the fund earned a return of 3% in January, while the Index returned 2%, creating a 1% excess return. The fund manager receives 20% of that excess, resulting in a 0.20% performance bonus, while the client retains the remaining 0.80%.

Underperformance and Recovery

When the fund underperforms the Index, that shortfall is tracked as cumulative underperformance. The fund manager cannot earn a performance bonus until the cumulative shortfall is fully recovered.

Example 2: Recovering Underperformance

As shown in the table below, the fund underperformed the Index in March and April, creating a cumulative underperformance of 2%. Then in May, the fund outperformed the Index by 4%. The first 2% of that outperformance is used to erase the cumulative underperformance, and the remaining 2% is eligible for a performance bonus. Therefore, the manager earns a performance bonus of 20% on that amount, resulting in a 0.40% bonus for the month.

Monthly Summary Table

Month End	Fund Performance (after other fees)	Index Performance	Cumulative Underperformance	Performance Bonus
January	3%	2%	0%	0.20%
February	2%	2%	0%	0%
March	3%	4%	1%	0%
April	-4%	-3%	2%	0%
May	5%	1%	0%	0.40%
June	2%	2%	0%	0%

Month of May - performance bonus calculation

$$= 5\% - 1\% = 4\% \text{ (outperformance)} - 2\% \text{ (to be made up)} = 2\% \text{ net excess amount} * .2 = 0.40\% \text{ Bonus}$$

The performance fee is included in the fund's total Management Expense Ratio (MER). MERs are reported annually in the *Fund Facts*, based on the prior fiscal year. **A higher MER for the Momentum Fund generally indicates that the fund outperformed the Index in the previous year, triggering performance fees.**

The MER includes investment management fees, operating expenses, guarantees, taxes, performance fee (if applicable), etc.
