Welcome to our Investment Strategy Guide!

Simply follow the 3-step process to build your investment strategy.

The questions and information contained in the 3-steps process below will assist you in building your investment strategy.

Step 1 allows you to better understand your investor risk profile.

Step 2 provides valuable information to distinguish between our 2 proposed solutions: Target risk approach (Portfolio solutions); or Target date approach (Smartseries).

Step 3 allows you to select the investment option that better meets your needs and preferences.

STEP 1

Determine your investment approach

Your investor approach is based on answers regarding your current financial situation, investment objectives as well as your risk tolerance. Please answer the following 3 statements. Remember, there are no right or wrong answers.

	AGREE	DISAGREE
1. I want to review my investments with my advisor annually.	<input type="checkbox"/>	<input type="checkbox"/>
2. I expect to access or redeem some of these funds before their intended use.	<input type="checkbox"/>	<input type="checkbox"/>
3. I am worried about short term fluctuations in my investment value.	<input type="checkbox"/>	<input type="checkbox"/>

Disagreeing with 2 or more of the statements above would suggest that you might benefit from a hands-off approach to investing. Our SmartSeries funds are designed to manage your investments automatically based on a target date closest to your goal.

YES, I want to proceed with target date investment options.
 Please proceed to **page 6** to find your SmartSeries target date.

NO, I would rather determine my risk profile and see other investment options.
 Please proceed to answering the **next 5 statements** below.

Agreeing with 2 or more of the statements above would suggest that you might benefit from a managed approach to investing. Our Portfolio Solutions are designed to manage your investments based on your risk profile.

YES, I would like to determine my risk profile and see target risk investment options.
 Please proceed to answering the **next 5 statements** below.

DETERMINE YOUR RISK TOLERANCE

Answer the following 5 statements and tally up the number of statements you agreed with.

	AGREE	DISAGREE
1. I intend on using these investments in less than 10 years.	<input type="checkbox"/>	<input type="checkbox"/>
2. I am not comfortable with fluctuations in my investment account. I want my investments to be safe even if it means that my investment returns will be significantly lower.	<input type="checkbox"/>	<input type="checkbox"/>
3. I have limited experience with investing.	<input type="checkbox"/>	<input type="checkbox"/>
4. If my total investment portfolio would fall by 30% or more over a one-year period, (for example, a \$30,000 investment falling to \$20,000), I would look for investment options with reduced market risk fluctuation instead of waiting for this investment to recover.	<input type="checkbox"/>	<input type="checkbox"/>
5. The chart below shows a sample using real data for our Conservative Portfolio (investment A) and Growth Portfolio (investment B) over the previous 11 years. I would be more likely to choose "Investment A" in the chart below.	<input type="checkbox"/>	<input type="checkbox"/>
You agreed with ____ of 5.		

SELECT YOUR RISK PROFILE

Match the number of agreed statements with the following investment profile then proceed to page 4, section 2.1.

STATEMENTS YOU AGREED WITH	YOUR INVESTMENT RISK PROFILE
If you agreed with 5 of the statements above	<p>YOU HAVE A Savings Profile</p> <ul style="list-style-type: none">• Your primary objective is preservation of capital; and/or• You cannot tolerate fluctuating returns; and/or• You are investing for a very short period of time. <input data-bbox="1385 499 1409 531" type="checkbox"/>
If you agreed with 4 of the statements above	<p>YOU HAVE A Conservative Profile</p> <ul style="list-style-type: none">• You are concerned with capital preservation and seeking relatively stable investment income; and/or• You are willing to tolerate limited fluctuations in your investment portfolio; and/or• You have a shorter time period for your investments to grow. <input data-bbox="1385 814 1409 846" type="checkbox"/>
If you agreed with 3 of the statements above	<p>YOU HAVE A Balanced Profile</p> <ul style="list-style-type: none">• You are seeking good potential long-term returns while minimizing the overall risk of your portfolio; and/or• You are willing to tolerate some market fluctuations and allow time to recover from any market downturns; and/or• You won't need to use these investments for the next few years. <input data-bbox="1385 1129 1409 1161" type="checkbox"/>
If you agreed with 2 of the statements above	<p>YOU HAVE A Balanced Growth Profile</p> <ul style="list-style-type: none">• You are a growth-oriented investor seeking strong portfolio growth; and/or• You are willing to accept market fluctuations but still want a small portion of your portfolio in fixed income; and/or• You have a relatively long period of time before you will need to use these investments. <input data-bbox="1385 1476 1409 1507" type="checkbox"/>
If you agreed with 1 of the statements above or less	<p>YOU HAVE A Growth Profile</p> <ul style="list-style-type: none">• Your primary objective is to achieve the best long-term return on your investments, and you are willing to accept major market fluctuations; and/or• You will not need to use these investments for many years. <input data-bbox="1385 1801 1409 1833" type="checkbox"/>

option

2.1 PORTFOLIO SOLUTIONS for a target risk approach

If you're looking for an investment strategy to achieve broad diversification and asset allocation, you'll love our Portfolio Solutions. We offer two portfolio types, traditional portfolio funds and select portfolio funds. Our new select portfolio funds have a more global approach and include more

passive investments through the use of exchange traded funds (ETFs). Our traditional portfolios are more focused on Canadian markets and active management. Please refer to the fund facts document for more detailed information on the portfolio breakdowns.

Match your risk profile results to determine which portfolio solution is right for you.

2.2 SMARTSERIES for a target date approach

If you are looking for an automated investment approach, SmartSeries offers sophisticated investment allocation & risk management strategy designed to optimize your risk-reward profile over time.

Each SmartSeries fund gradually reduces the market risk fluctuation over time as it approaches the target date. Simply select fund that coincides with the year closest to when you are planning to retire.

Use the following calculation to determine which SmartSeries strategy is right for you.

SmartSeries funds are offered in 5-year increments. It's prudent to round down the results of your calculation.

For example: If you are 33 in 2020 and plan to retire at the age of 65, the ideal fund for you would be SmartSeries 2050.

**I understand that building a diversified well-balanced portfolio is a significant undertaking. I am comfortable selecting my own investments to build my portfolio, knowing I am taking on additional risk & responsibilities and I accept the results of such choices. I understand that portfolios should be re-balanced regularly to avoid portfolio drift and concentration. Individual funds do not necessarily offer the same automatic rebalancing offered by other managed portfolio solutions available.

By signing below, I confirm that:

- I confirm and agree with the answers provided in the Investment strategy guide completed with the advisor.
- I agree that my investor strategy is in line with my goal. I understand the risks associated with this investment profile and that these risks can have an impact on the value of my investment portfolio. I will notify my advisor of any changes that may impact my investment objectives and resulting investor profile.
- Choosing an investment option that matches your investment strategy does not guarantee that you will reach your financial goals. Other factors, such as the amount of money needed to finance your goals and your saving habits, must also be considered. Your advisor can help you plan the steps to take to reach your goals.
