Assumption Life and ClaimSecure are partnering to launch Coverage Navigation Services. All you need to do to enrol is take a few minutes to read this letter and understand the benefits of this important option, then complete and return the attached form.

ClaimSecure is working with Assumption Life to better administer your drug plan. Your plan sponsor implemented a new drug plan, Formulary Protect Plus. This formulary provides coverage for most commonly prescribed medications while excluding Specialty Drugs that can be funded by special access programs or a provincial drug programs.

A critical step in implementing drug therapy is to make sure you have access to the right treatment at the right time through the right means. This is not always easy, which is why we are offering you professional assistance in handling that challenge.

Through their partnership, Assumption Life and ClaimSecure are ready to help you secure the best access to the best available pharmaceutical treatment. By helping you navigate the maze of paperwork and applications, they will significantly reduce the time and stress involved and ensure you get prompt action.

Although some of the steps in this process may seem demanding at times, they are necessary to secure long-term access to the best healthcare treatments for you and all your colleagues for years to come. It also pays to take a bit more time upfront in order to save time later.
