

Case Scenario

Discover immediate solutions
for cancer survivors

Client: Marc, 45 years old

Insurance Needs

Marc, 45, is a single father raising two teenagers. He wants to ensure his family is financially secure if something happens to him. His priorities are to cover final expenses, pay off small outstanding debts, and leave a modest legacy for his children.

Health Profile

Over three years ago, Marc was diagnosed with early-stage prostate cancer. He completed treatment successfully and has remained cancer-free ever since. Although he is otherwise healthy, traditional fully underwritten insurance options have been limited or offered at higher costs due to his medical history.

Eligibility

Marc qualifies for **Assumption Life's Golden Protection – Whole Life** or **Term** – an immediate simplified solution offering coverage **up to \$250,000**, without medical exams or doctor's reports.

Tailored Solution

Marc opts for the following bundled solution:

- **Golden Protection Whole Life – \$50,000** to cover final expenses and leave a small legacy for his children.
- **Accidental Fracture Plus (2 units)** to provide **up to \$10,000** per accident for covered fractures and accidental death and dismemberment.

Total monthly premium

For **\$111.96 per month**, Marc secures permanent coverage with guaranteed premiums, while adding extra peace of mind through the fracture benefit.

He can also choose the 20-year pay option for \$174.20 per month, completing all payments by the time he retires.

Did you know?

Golden Protection:

- Builds cash value over time, providing flexibility if funds are needed later in life.
- Offers protection for cancer survivors of 3 years* or more, even in cases of recurrence or second diagnosis.
- Includes a transportation benefit at no additional cost if death occurs more than 200km from home.

**More than three years must have passed since the diagnosis, hospitalization, and completion of treatment (including any prescribed medication).*
